PREGNANT WOMEN CHEMICAL DEPENDENCY/ABUSE TREATMENT ACCESS MATRIX

PREGNANT WOMEN CHEMICAL DEPENDENCY/ABUSE TREATMENT ACCESS MATRIX KEY

CD/WOMEN'S TREATMENT AGENCY: Chemical dependency treatment services certified by DSHS's Division of Behavioral Health and Recovery (DBHR), listed in DBHR's service directory with focus on Women's Programs. PPW = Pregnant and Parenting Women

CHEMICAL ABUSE: A recurring pattern of alcohol or other drug use that substantially impairs a person's functions.

CHEMICAL DEPENDENCY: Characterized by reliance on psychoactive chemicals. Chemicals include alcohol, marijuana, stimulants such as cocaine and methamphetamine, heroin or other narcotics. Dependency characteristics include; loss of control over the amount and circumstances of use, symptoms of tolerance, physiologic or psychological withdrawal when use is reduced or stopped, and substantial impairment or endangerment of health, social and economic function.

CHEMICAL DEPENDENCY/ABUSE ASSESSMENT: Diagnostic services to determine a person's involvement with alcohol and other drugs and to recommend a course of action.

CHEMICAL USE: Ingestion of psychoactive chemicals or pattern of psychoactive chemical use by any family member. Use patterns are characterized by continued use despite knowledge of having persistent or recurring social, occupational, psychological or physical problems that are caused by use.

CHILDCARE: DSHS managed childcare services provided in support of chemical dependency treatment; medical care appointments, foster care, employment, or other approved needs.

COMMUNITY SERVICE SYSTEM: Statewide Community Services field offices or access points that provide financial, medical and food assistance to eligible clients. Assist with eligibility for Medical ID cards and referrals to other community programs and resources.

CUP (Chemical Using Pregnant) PROGRAM: DSHS inpatient hospital program at pre-approved hospitals statewide, providing acute medical detoxification and stabilization of the pregnant, chemically dependent woman and her fetus, as well as drug/alcohol treatment services.

DETOXIFICATION: Care and treatment in a residential or hospital setting of persons intoxicated or incapacitated by alcohol or other drugs during the period in which the person is recovering from the transitory effects of intoxication or withdrawal. Acute detox provides medical care and physician supervision, sub-acute detox is non-medical.

FAMILY PLANNING: Family Planning and reproductive health services and products for eligible clients.

FIRST STEPS/MATERNITY SUPPORT SERVICES (MSS) AND INFANT CASE MANAGEMENT (ICM): Community based staff certified by DSHS as a First Steps Provider agency. Any history or risk of chemical dependency in the household qualifies Medicaid eligible pregnant women for services. The focus is on delivering health messages, facilitating positive birth and parenting outcomes, interventions, linkages and coordination among all providers.

INTENSIVE INPATIENT TREATMENT: Residential inpatient primary alcohol/drug treatment program in a non-medical facility (freestanding) for up to 30 days. Consist of therapy, education, and activities for detoxified alcoholics and addicts, and their families.

MEDICAID ID CARD: Medical Assistance ID Cards are the forms DSHS uses to identify clients of medical programs. Eligible clients receive a Medical ID Card when they are eligible and they are also referred to as ProviderOne.

OUTPATIENT SERVICES: Individual and group treatment services of varied duration and intensity for chemical dependent patients less than 24 hours a day in a non residential setting.

RESIDENTIAL/LONG TERM WOMEN'S MODEL: Chemical dependency residential treatment program with personal care services for chronic need of long term services over 90 days. Gender specific women's programs offer the capacity to have children reside with parent, and focus on women's personal issues needed to maintain abstinence, independence, & health.

WASHINGTON RECOVERY HELP LINE: Confidential 24 hour statewide telephone service to assist with alcohol/drug related crisis intervention, guidance, information and referrals to community resources. 1-866-789-1511

WIC: Women, Infants & Children's Supplemental Food Program provides food vouchers and education to pregnant low-income women and children up to age five.

Safe Babies Safe Moms (SBSM)

SBSM is a comprehensive program for Medicaid eligible substance abusing pregnant and parenting women with children under the age of three. Services available in cooperation with other publicly funded services include residential chemical dependency treatment with therapeutic childcare, housing support services, and targeted intensive case management (TICM) services. SBSM is the TICM service that includes intensive case management, behavioral health related services, child development screening, assessment and referral, and parenting education. Eligible women/children may receive TICM services until the child's third birthday.
